To Whom It May Concern:

I am very glad to write a recommendation for Mr. John Cruz. I met John a few years ago in my Transportation Planning course at Wayne State University. I also served as John's advisor for his master's essay. As my student John was always been respectful and prompt which are characteristics that are noteworthy. Success in any work environment requires various competencies with communication and writing at the top of the list. I feel that John has a good handle on both communication and writing.

Both in and out of the classroom John has good communication skills that add value to the discussion at hand. In addition, John has good writing skills which is reflected in the completion of his Masters degree in Urban Planning.

As you can tell, I am quite impressed John and recommend him without reservations. Please let me know if you have any further questions.

Sincerely,

A handwritten signature in cursive script that reads "Chade Saghir".
